Paul w/Oro Valley received approval for cattle guards at Big Wash Overlook Place and Scenic Overlook Place if neighborhood approves. NH approved automatic entry gates at two entrances to subdivision and cattle guards at two secondary openings. AECOM is currently working on a proposal for the design. Proposal approved. AECOM will be issued a N/P soon. In Segment 5, Precision Surveying will lay out edge of Conservation Easement week of 3-11-19 so we can determine the alignment for a fence to stay within the easement and not negatively block some of the braided channels. Line was surveyed in. Eric Shepp and I will walk site to come up with some strategies April 23. On May 19 we walked the site again to reaffirm the fence alignment with Marissa from PCFCD and three staff from AG&amp;F. We also took GIS data to plot on a map. Re. Segment 4 on June 6 we met with Coalition staff, Pima Co. and Oro V. staff to review AECOM's concepts and Paki sent them to Brian for incorporation in the concepts. Meeting with AECOM week of March 9, 2020 to discuss design &amp; bidding issues. Segment 5 is undergoing some design and survey issues to construct a fence in the floodplain within the Conservation Easement. Hope to construct in the next couple of months.</p>
