ASSOCIATED OWP WORK ELEMENT/GOAL

Work Element 40, Regional Transportation Planning.

SUMMARY

Each year, Pima Association of Governments (PAG) works with ADOT to recommend grant awards for the Federal Transit Administration's (FTA) Section 5310 program. The Section 5310 program provides capital and operating grants for agencies that primarily serve passengers who are elderly or persons with disabilities. PAG acts as the local planning agency for the ADOT-administered 5310 program, part of which requires that PAG make funding recommendations to ADOT for both urban area and rural project requests. (The 5310 program apportions funding directly for large urban areas on a formula basis, and to the state for rural systems. ADOT administers both urban and rural programs in the PAG region.)

For the FY 2018 grant award recommendations, PAG staff reviewed applications from eight agencies making funding recommendations for nearly \$873,000. Applications were ranked based on a scoring rubric provided by ADOT and refined to better align with regional priorities. Funding recommendations are included in Appendix F of the updated Public Transit Human Services Coordinated Transportation Plan. ADOT will complete final award notices to be posted in June 2018.
